☆ BIRDS & BEES-NEW VERSION ☆

(Thanks Lana)

A little boy asks his father how he was born. The father answers, "Well Son, I guess one day you will need to find out anyway. Your Mum and I first got together in a chat room on Yahoo. Then I set up a date via e-mail with your Mum and we met at a cyber-cafe. We sneaked into a secluded room where your mother agreed to a download from my hard drive. As soon as I was ready to upload, we discovered that neither one of us had used a firewall, and since it was too late to hit the delete button, nine months later a blessed little pop-up appeared and said, "you've got male!"

definitions for Phishing

In a phishing attack, a fraudster spams the Internet with email claiming to be from a reputable financial institution or e-commerce site. The email message urges the recipient to click on a link to update their personal profile or carry out some transaction. The link takes the victim to a fake website designed to look like the real thing. However, any personal or financial information entered is routed directly to the scammer.
